

# PERSONAL ACCESS FLOOD DOORS

Flood protection for any standard, outward opening door.

The FloodFree Personal Access Flood Door (PAFD) is engineered to withstand the designated flood level. Once closed it provides a flood protected, lockable point of entry.

## FEATURES

- Feels, operates and looks like a regular door.
- Design complies with Australian Standard AS1428.1 (Design Access and Mobility Standards).
- Designed to fit standard door frame sizes.
- Hydrostatically charged door seals designed for optimum sealing performance.
- Multiple frame fixing points securely anchor door frame to wall.
- All fixings concealed.
- Suitable for most types of door hardware.
- Door and frame supplied in a range of colours.
- Door supplied pre-hung for easy installation.
- Designed for minimal maintenance.
- Permanent protection.
- Corrosion resistant.
- Robust construction.

## APPLICATIONS

- Shopping centres.
- Sporting complexes.
- Offices.
- Residential houses.
- Storage facilities.
- Industrial buildings.
- Utility rooms.
- Commercial.

FLOODFREE

## PERSONAL ACCESS FLOOD DOORS

### DESIGN

#### SIZES

- Suits standard door frame sizes (between 700mm - 1100mm wide and 1800mm - 2500mm high).
- Customisable to suit.

#### MATERIALS

- PAFDs are fabricated from marine grade aluminium, designed for strength, high corrosion resistance, long asset life and minimal maintenance.
- Doors will be supplied with Mortice Locks and Handles, unless otherwise specified.

#### SEALING

- The FloodFree door design, frame and seals will provide water resistant sealing up to 900mm.

### MANUFACTURE

- All procedures are in accordance with AWMA's accredited ISO 9001 Quality Management System to ensure each barrier is manufactured to a high standard.

### INSTALLATION

- Installation procedure similar to standard door frames, no special skill set or training required.
- Doors supplied pre-hung and painted with hardware fitted.
- Installation instructions provided.

LOOKS, FEELS AND OPERATES  
LIKE A STANDARD DOOR.
